

Asurint SMS Messaging Policy

Privacy and Data Use

Asurint will only communicate the minimum necessary personal information via SMS to accurately identify the intended recipient. We do not collect or store any data submitted via text message, except for the sole purpose of obtaining or updating consent. All information is subject to our Privacy Policy (<https://www.asurint.com/privacy-policy>).

Text messages may include secure links to our website or candidate portal. Any personal information should be provided solely through the secure link to the candidate portal and will not be requested via text message. Asurint has partnered with other companies to provide certain services such as drug and occupational health screening. As a result, consumers may be contacted directly through SMS by those parties. Any such communication is separate from Asurint's services, and we are not responsible for the messaging practices employed by our partners.

SMS Communication

Asurint will only communicate via SMS messaging when a consumer has consented to such service, which will be captured by Asurint's clients through contact with their candidates. Consenting to SMS messaging is not required for Asurint's services. Asurint will also send a confirmation text message to the candidate. We will not send any additional communication via SMS until we receive confirmation of the candidate's consent. SMS messaging services, and any information collected via this service, will not be shared with any third party for marketing purposes.

Consumers can opt out of SMS notifications at any time by following the instructions included in the message, including texting "Stop". Consumers may also contact our support team at support@asurint.com or (800) 906-1674. Asurint will send a confirmation text message to the consumer once they are successfully unsubscribed from SMS notifications. Consumers who opt out will not receive any further SMS communication unless they choose to opt back in.

Asurint does not charge consumers for SMS notifications. However, standard message and data rates may apply. Please contact your wireless carrier if you have any additional questions or concerns.

Additional Help

For any additional assistance, candidates can reach out to the Asurint support team at support@asurint.com or (800) 906-1674.
