

THE ONLY LOGICAL PLACE TO START BACKGROUND SCREENINGS

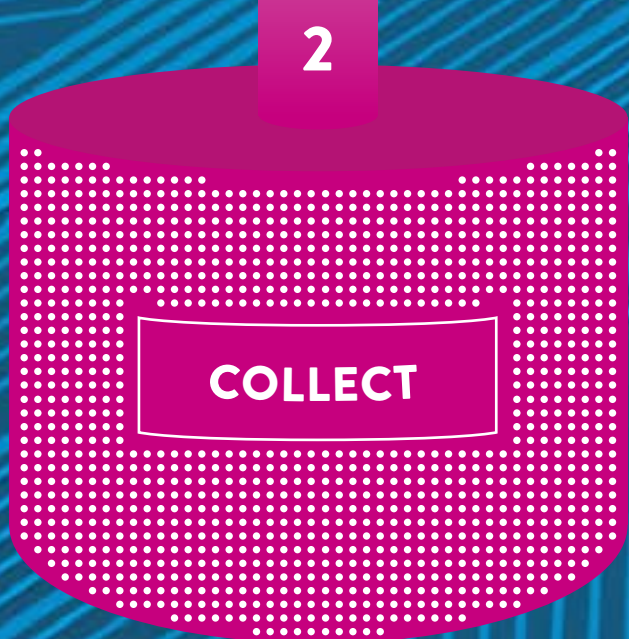

IQLOGICS™

ASURINT'S BACKGROUND SCREENING RECOMMENDATION ENGINE

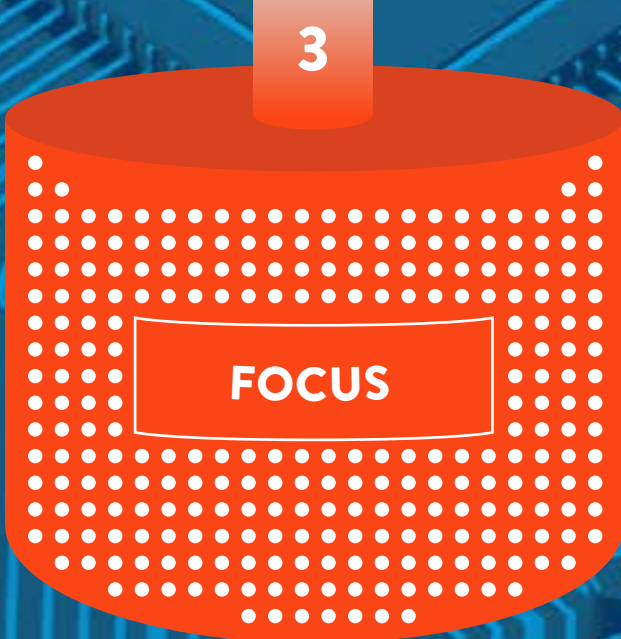

HOW DOES THE IQLOGICS™ RECOMMENDATION ENGINE WORK?

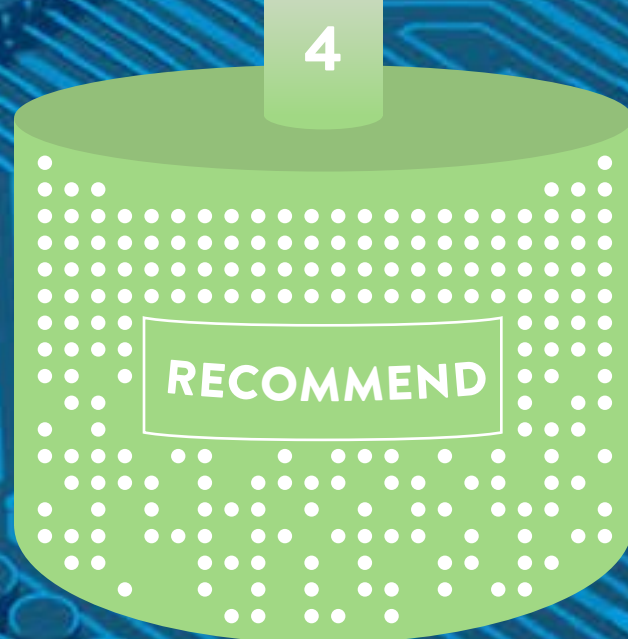

Input a tenant's name, date of birth and social security number

IQLogics™ looks for any additional addresses not provided by the tenant

Using a proprietary algorithm, IQLogics™ examines our unique index of jurisdictions to determine the best sources to run your background check

IQLogics™ recommends the fastest, most accurate criminal background checks available

WHAT IS IQLOGICS™?
IQLogics™ is the first recommendation engine for background screenings. It uses a proprietary algorithm to instantly determine the best background searches to run for every tenant.

WHY ARE BACKGROUND SEARCHES BETTER WITH IQLOGICS™?
IQLogics™ recommends the background screens that will quickly and compliantly provide a more complete picture of every tenant. With the right background information, you can then make smarter decisions and limit risk.

DETAILED
16% more records at no additional cost

ACCURATE
99.99% accuracy rate

FAST
25% faster turnaround times

4 TYPES OF BACKGROUND SCREENING RECOMMENDATIONS FROM IQLOGICS™

Q NCIB NATIONWIDE

Q STATEWIDE

Q MULTI-COUNTY

Q SINGLE-COUNTY

The IQLogics™ engine unlocks a screening recommendation tailored to a tenant's address history and social security number trace. Each recommendation will include a unique combination of background searches designed to deliver the fastest, comprehensive, cost-effective result.

DID YOU KNOW: Federal, state and local laws and regulations are constantly changing. So, after you run your background screening, Asurint filters the results through our compliance engine to help mitigate risk.

THE IQLOGICS™ RECOMMENDATION ENGINE RUNS SMOOTHLY SO YOU CAN STRESS LESS

ELIMINATE GUESSWORK

The multitude of background screening options is overwhelming. Let IQLogics™ instantly recommend the right search for every tenant.

REMOVE LEGWORK

It's time-consuming to manually search countless court systems to collect data on your own. IQLogics™ can determine efficient automated searches.
