

CANDIDATE ADJUDICATION ASSISTANT

Stop manually comparing reports. Start hiring.

EXPEDITE YOUR ADJUDICATION PROCESSES

Adjudicators spend too much time manually sifting through background screens and checking them against various hiring risk matrices.

Asurint's Candidate Adjudication Assistant allows adjudicators to easily upload one or multiple matrices configured with offenses to be flagged for each and every job type.

Candidate Adjudication Assistant automatically identifies candidates with offenses that might impact the job and flags them for review. Adjudicators can maintain a laser focus on only relevant criminal records so that they can hire the right candidates for the job.
