A SURE WAY

TO QUALITY CANDIDATES

Now, more than ever, employers are looking to hire the right candidates – fast. Organizations everywhere turn to Asurint because of our innovative technology, deep insights, and a world-class support experience.

The Asurint Advantage

AUTOMATION START TO HIRE

We take the manual work—and the guesswork—out of background checks. Our smart searches map your route to a full candidate picture and Direct Court Access plugs you into a dynamic network that covers over 85% of the US population. The result? A more streamlined and effective hiring process.

NIMBLE TECH FOR A CHANGING WORLD

Make your hiring decisions with peace of mind knowing you're ready for what's ahead. Our end-to-end compliance engine is built to keep your hiring process on track, with tools that always reflect the newest federal laws, state regulations, and local mandates to help you minimize risk and mitigate costly penalties.

SUPPORT THAT TREATS YOU LIKE A PARTNER

We offer three dynamic channels to contact our Screen Team, as well as on-demand educational tools and access to industry thought-leaders. And, as always, our industry leading subject matter experts and background search assistance are at your fingertips.

INTEGRATIONS TO GET YOU OUT OF THE GATE

Our deep library of integrations allows you to keep your existing workflows within your ATS or HRIS. Including out-of-the-box deploys, rapid on-boarding, and comprehensive training. Because the more intuitive the background screen, the more ambitious your hiring objectives can be.
